Lead Full-Stack Product Engineer with 7+ years crafting responsive, accessible, and high-performance web applications using React, TypeScript, Next.js, Node.js, and Tailwind CSS. Obsessed with micro-interactions, WCAG 2.2 AA accessibility, and developer ergonomics.

TECHNICAL PROFICIENCIES

Key Skills: TypeScript ? React 19 ? Next.js ? Tailwind CSS ? Node.js ? FastAPI ? GraphQL ? Framer Motion ? Jest / Playwright ? Vite ? Zustand

PROFESSIONAL EXPERIENCE

Lead Full-Stack Product Engineer | *Lumina SaaS Studio* (2021 - Present)

? Architected company flagship enterprise dashboard in React 19, TypeScript, and Tailwind CSS with sub-second page loads.

? Engineered optimistic UI updates and real-time collaboration canvas via WebSockets, eliminating user data collisions.

? Implemented WCAG 2.2 AA accessibility audit standards across 150+ UI components, achieving 100% keyboard accessibility.

? Authored comprehensive end-to-end testing suite with Playwright and GitHub Actions CI running on every pull request.

Full-Stack Engineer | *CraftFlow Studio* (2018 - 2021)

? Built customer-facing billing and checkout portal with React, Stripe Elements, and Node.js backend.

? Migrated monolithic frontend codebase to modern TypeScript monorepo with Turborepo.

EDUCATION

B.S. in Software Engineering, University of Michigan (2018)
