Abhinav Singh

Senior QA Automation & Test Lead

Email: **abhinavclouds@gmail.com** | Phone: +1 (555) 632-1109 | Location: Atlanta, GA (Remote)

PROFESSIONAL SUMMARY

Senior QA Automation Engineer with 7+ years developing automated test frameworks for complex microservice architectures and web applications. Expert in Playwright, Cypress, Pytest, REST API testing, and performance testing with k6.

TECHNICAL PROFICIENCIES

Key Skills: Playwright ? Cypress ? Python (Pytest) ? TypeScript ? k6 Performance Testing ? REST API Testing ? Docker ? GitHub Actions CI ? Postman ? Test Rail

PROFESSIONAL EXPERIENCE

Lead QA Automation Engineer | *QualityFirst Systems* (2021 - Present)

? Engineered end-to-end browser automation framework in TypeScript with Playwright running 400+ parallel test specs across Chrome, Firefox, and WebKit.

? Integrated automated regression suites into GitHub Actions PR pipelines, catching 98% of UI regressions before staging release.

? Developed backend API test harness with Python Pytest and Faker, covering 100% of critical checkout and auth endpoints.

? Conducted stress and load testing with k6, identifying database locking bottlenecks prior to Black Friday peak.

QA Automation Engineer | *Apex Software Labs* (2017 - 2021)

? Migrated legacy Selenium Java test suite to Cypress, cutting test execution duration from 90 minutes to 14 minutes.

? Authored automated synthetic monitoring scripts alerting team to production regression within 60 seconds.

EDUCATION

B.S. in Computer Information Systems, Georgia Tech (2017)
