Abhinav Executive

VP of Cloud Platform & Systems Engineering

Email: **abhinavclouds@gmail.com** | Phone: +1 (555) 999-8888 | Location: San Francisco, CA

PROFESSIONAL SUMMARY

Executive technology leader with 16+ years scaling engineering organizations from early-stage through IPO. Proven executive track record overseeing 120+ cloud engineers, managing $25M annual infrastructure budgets, and spearheading enterprise cloud transformation, security compliance (SOC2 Type II, FedRAMP), and global 99.999% reliability standards.

TECHNICAL PROFICIENCIES

Key Skills: Executive Leadership ? Strategic Cloud Architecture ? Budget Optimization ($25M+) ? Global Infrastructure ? SOC2 Type II / FedRAMP ? Multi-Cloud Strategy ? DevOps Culture ? Incident Management ? Talent Mentorship ? Vendor Negotiation ? Kubernetes ? AWS / GCP

PROFESSIONAL EXPERIENCE

Vice President of Cloud Platform Engineering | *Global Enterprise Systems Corp* (2020 - Present)

? Lead an organization of 120+ cloud, SRE, and platform engineers across North America and Europe.

? Managed $25M annual cloud budget, delivering $6.2M in annual efficiency savings through contractual reservation planning and architecture refactoring.

? Maintained five-nines (99.999%) availability across core enterprise financial transactional platforms handling $80B annual GMV.

? Established security and governance committee achieving FedRAMP In-Process status and continuous SOC2 compliance.

Director of Infrastructure & Operations | *HyperGrowth Cloud Inc.* (2015 - 2020)

? Grew infrastructure engineering department from 8 to 45 engineers through high-bar talent acquisition.

? Led complete cloud migration from colocation datacenters to AWS, reducing operating overhead by 40%.

? Introduced site reliability engineering (SRE) practices and company-wide post-mortem culture.

Principal Systems Architect | *Foundational Tech Solutions* (2010 - 2015)

? Architected high-throughput distributed caching and database clustering solutions.

? Authored company foundational engineering RFC guidelines and design review standards.

EDUCATION

M.S. in Computer Science, Stanford University (2010) | B.S. in Electrical Engineering, MIT (2008)
